

I created this A4 publication based on a story of injustice that the Nigerian musician and political activist Fela Kuti faced.

There is an incident of the Nigerian police trying to frame Fela for drug possession which would allow them to imprison him for at least 10 yrs meaning he would not be able to create anti military /police songs like Zombie.

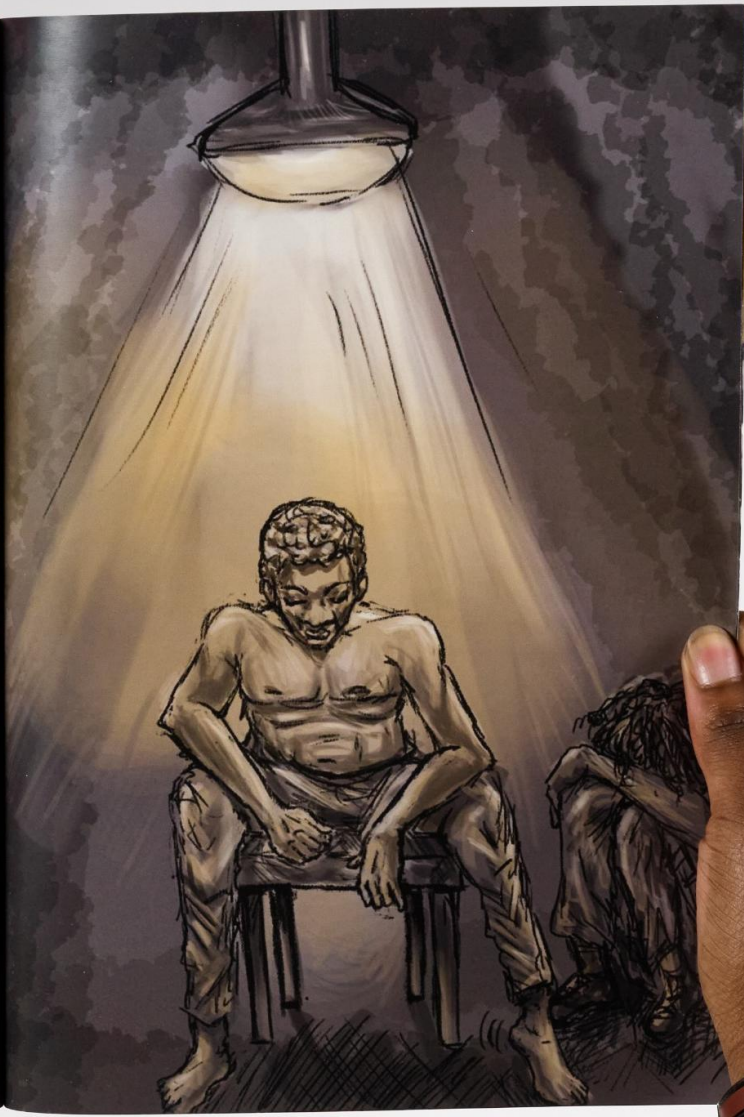

But in the struggle Fela swallowed the blunt and was taken into custody , when they tested him negative for drugs, he then went on to write a song about it after his release.
