

WHAT DO I FEEL ,I created this diorama After visiting Trancesrty an exhibition displaying clothing, protest posters from trans people that had been donated. I wanted to encapsulate the feeling of confusion based on gender roles and how something can be seen as feminine or masculine with minute changes such as makeup or facial hair. I wanted the viewers to look within and think about their gender expression. I then show a figure within this box representing gender surrounded by different colours and textures.

WHAT DO
I
