ELORA

- THE WANDERER

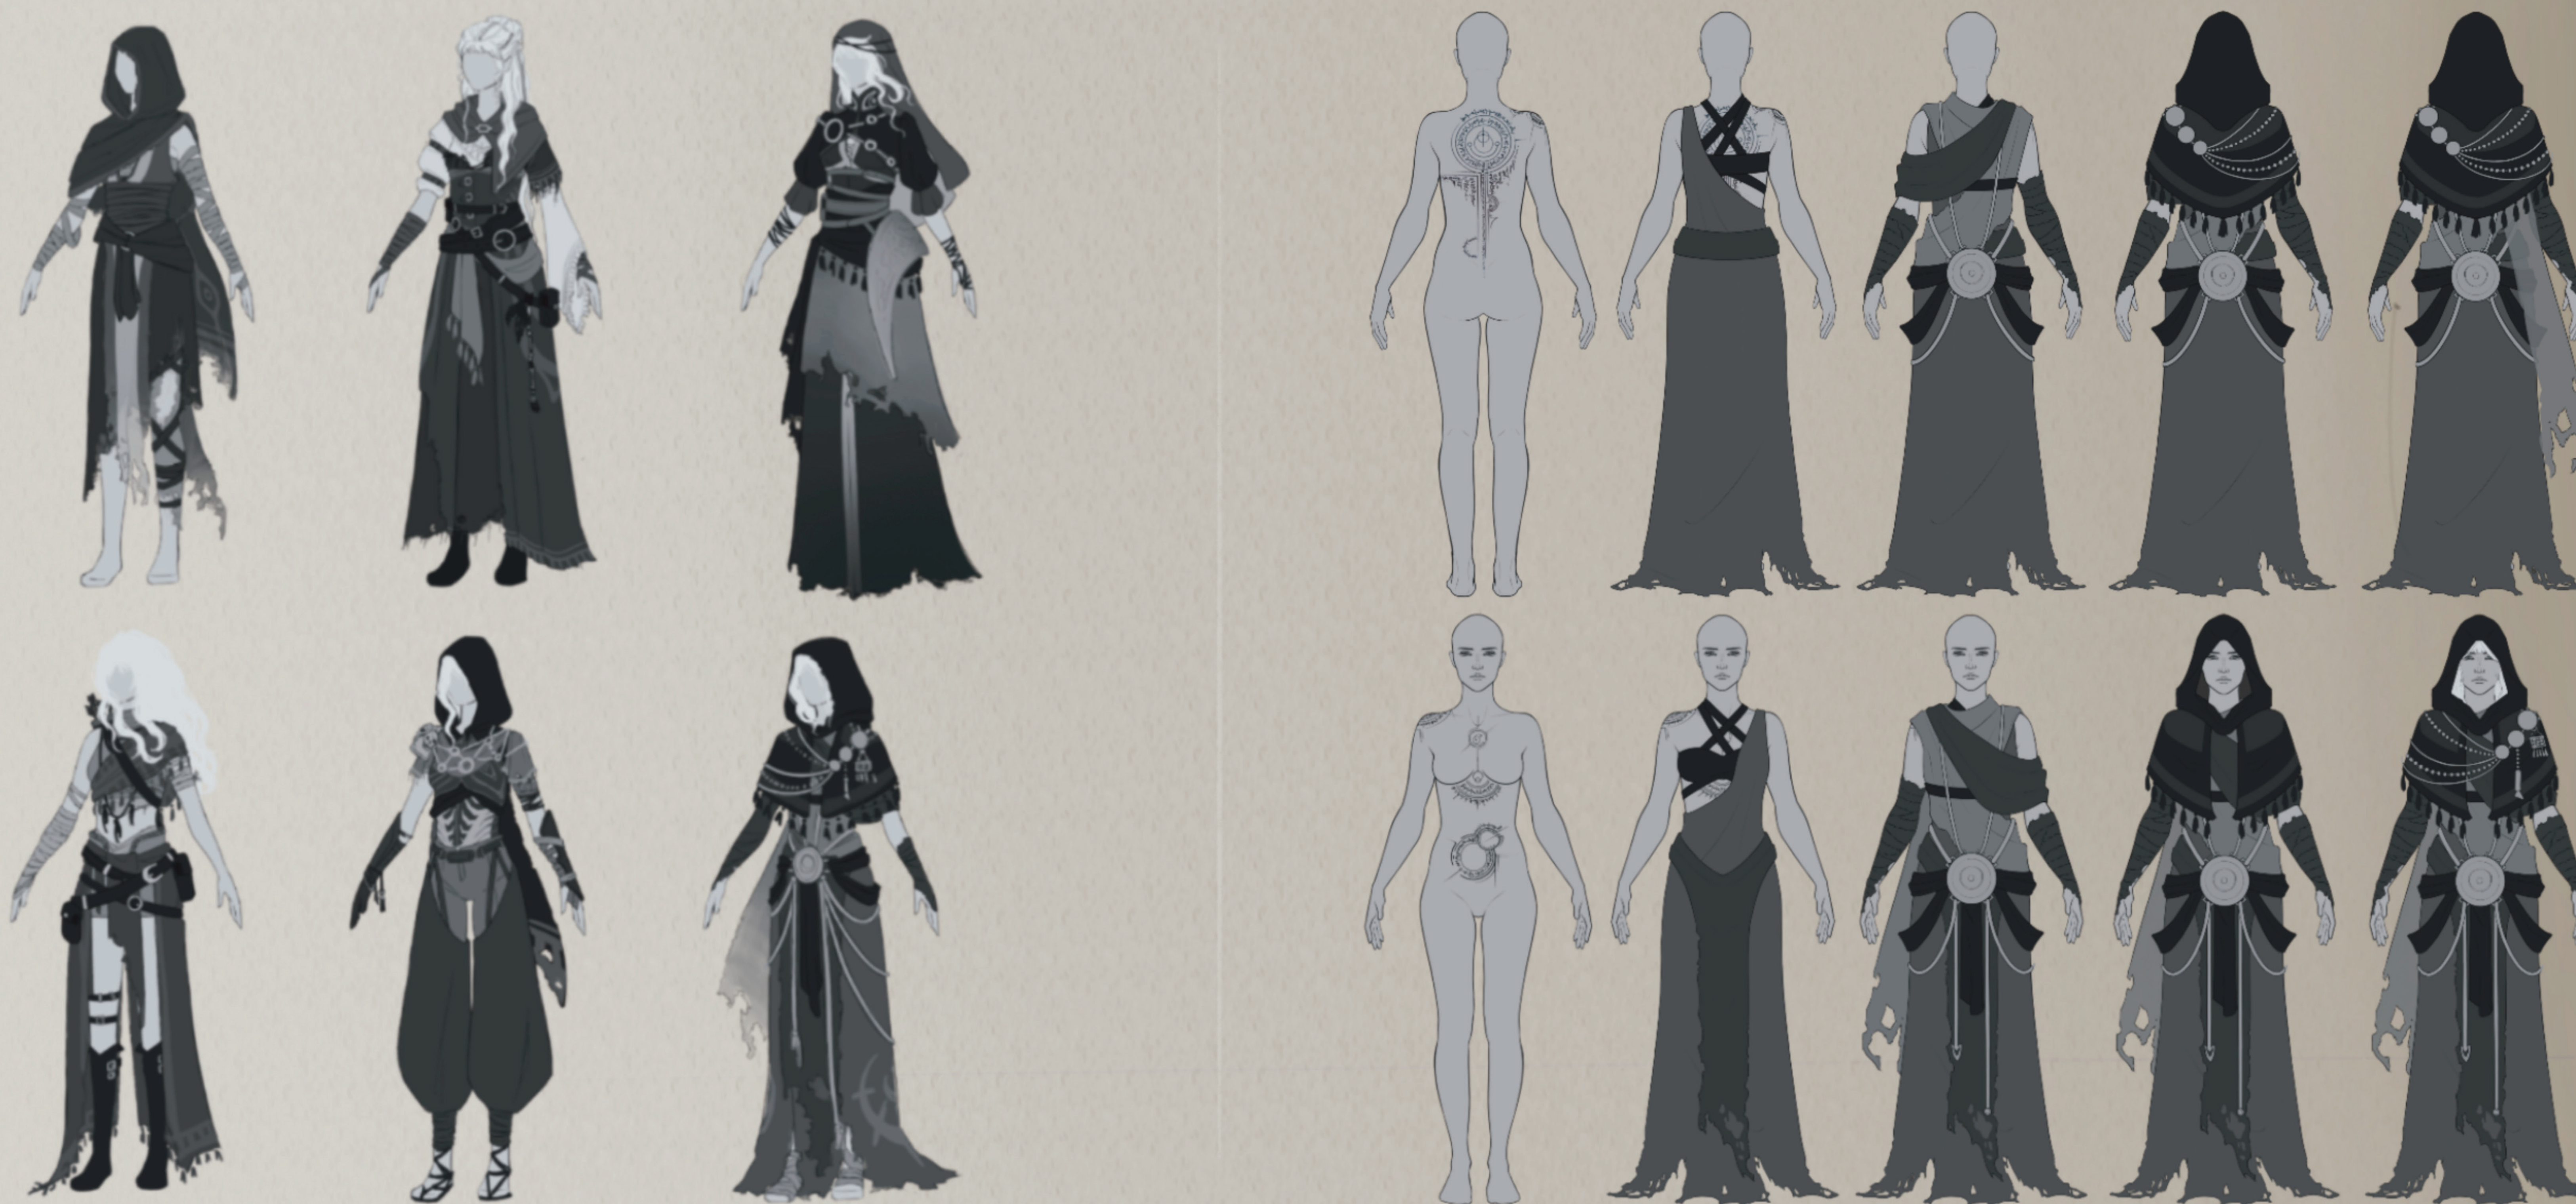

Once a trusted mind in the court, now Elora walks in exile. Her name was stripped, her purpose uncertain and her allies lost. She moved like a shadow across the forgotten lands, her presence soft but unyielding. Alone she walked, cloak frayed by wind and time, branded by those she once served.

ELORA

- THE AWAKENED

The silence of exile gave way to echoes—memories of runes, fragments of fire. No longer nameless, Elora carved her way through the remnants of the world, her hands steady and her skills sharpened. The roads did not grow kinder, but she no longer bowed beneath their weight. Yet with each step forward, the shadow of what awaited her grew darker.

ELORA

- THE ASCENDED

The last embers of her old self burned away in the shadows. Through every mark that seared her flesh, every ruin walked in silence, she was made—and unmade. She does not return to reclaim what was lost; she returns to end what should never have been. And now, at the edge of all things, she stands unbound.

AQUILIUS

- THE KING

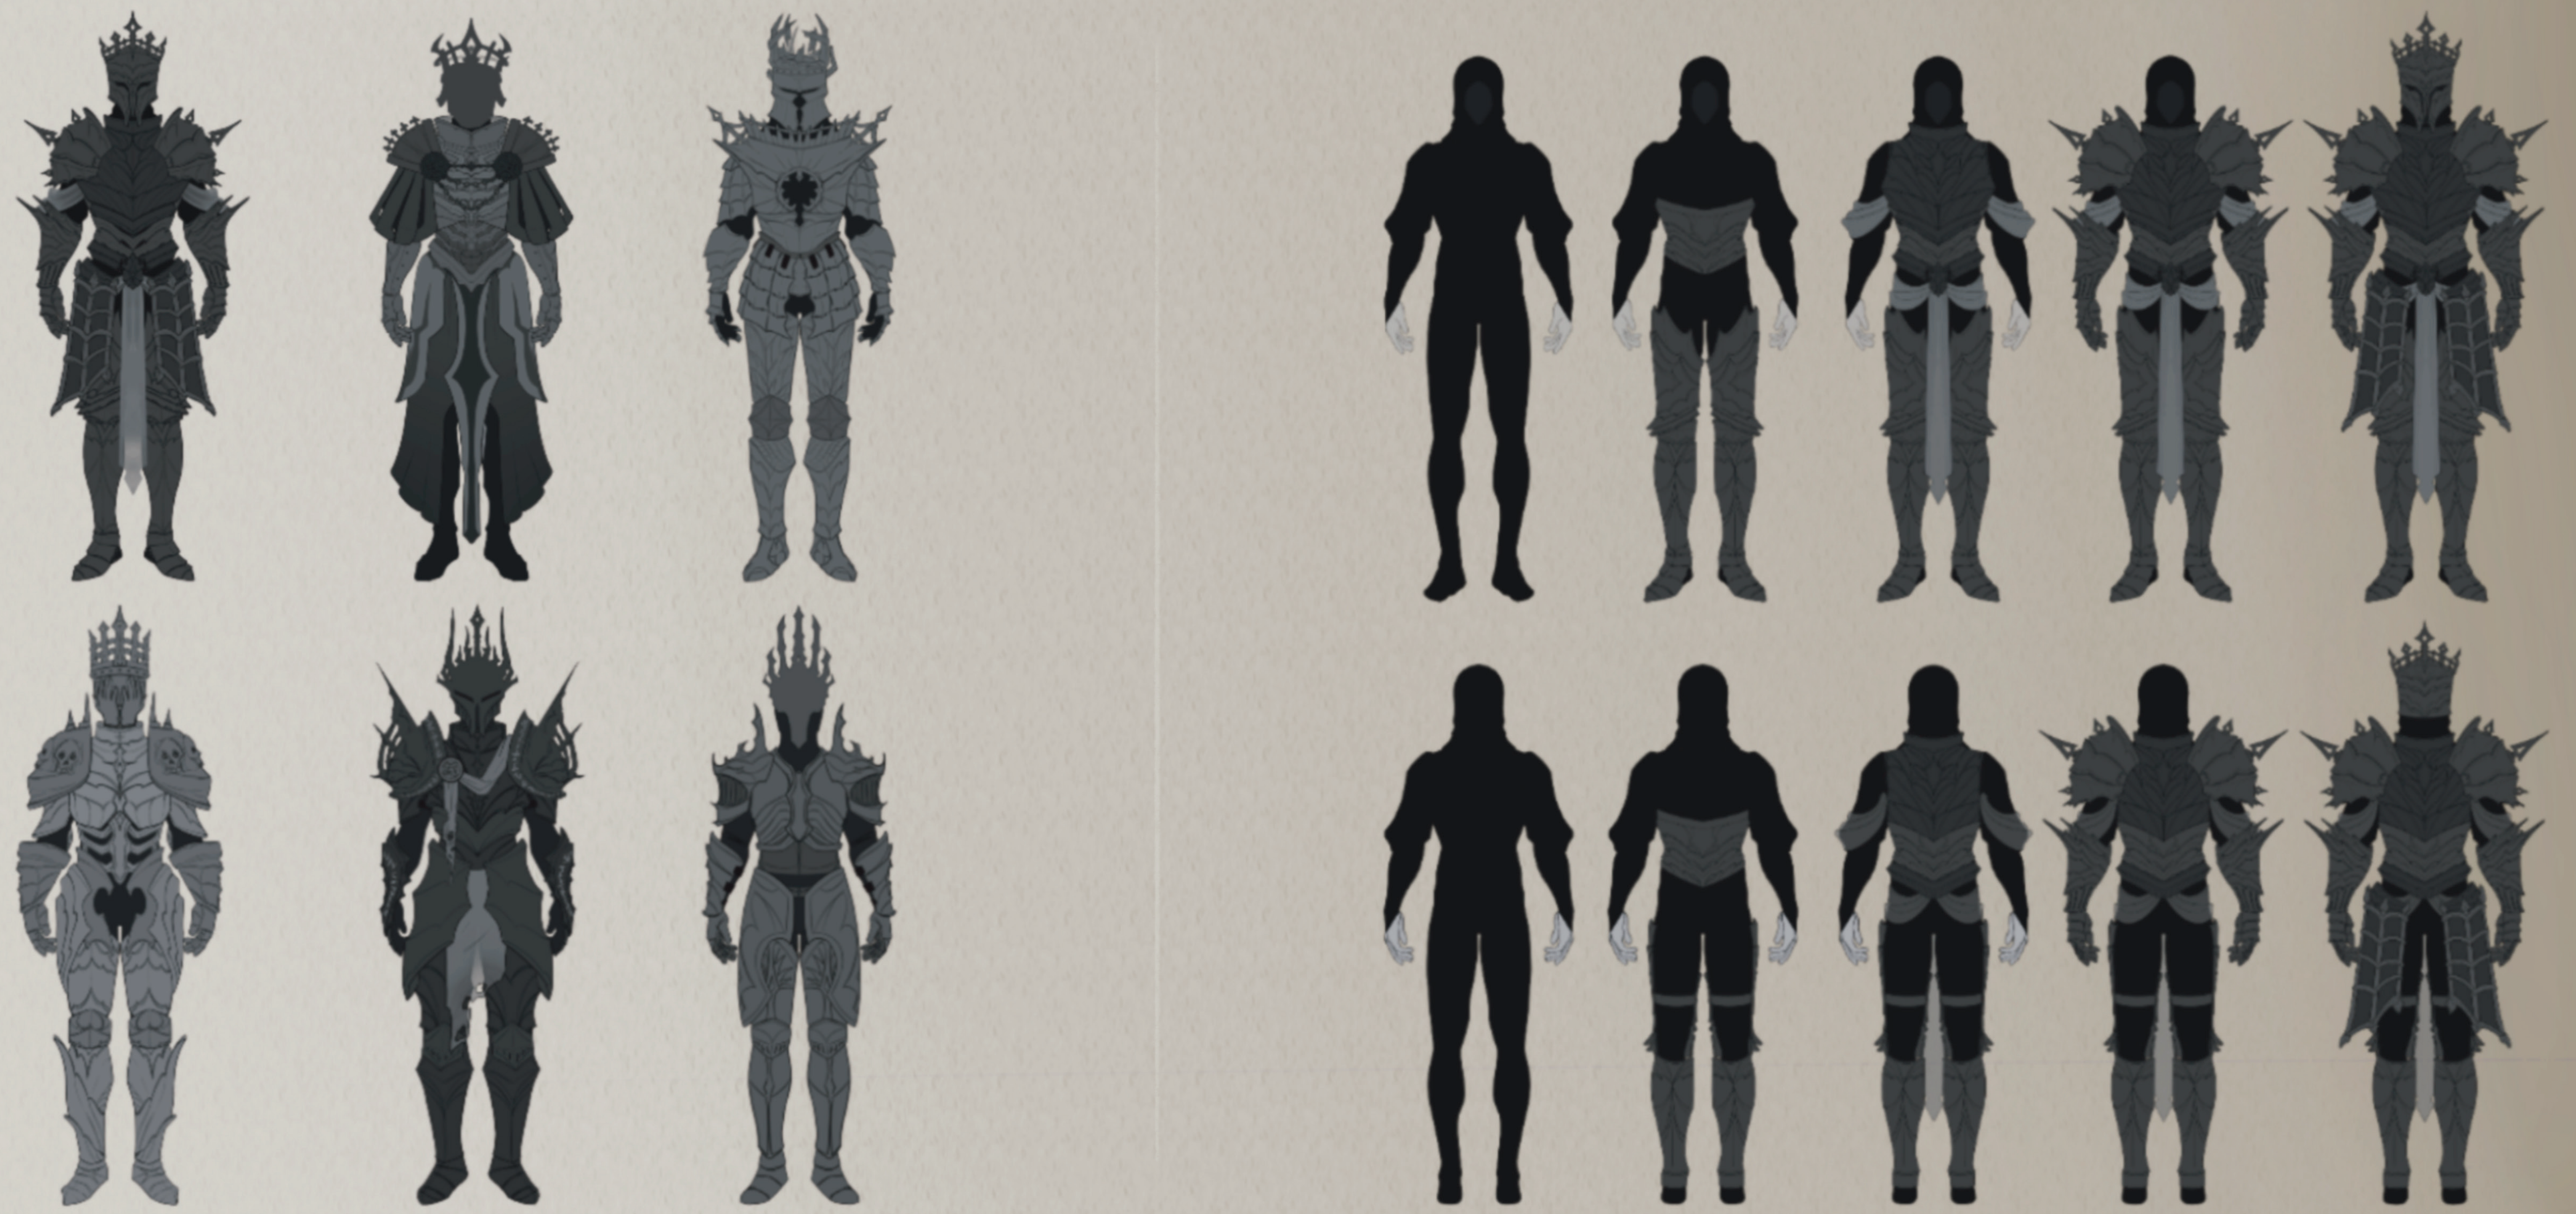

Once beloved, now feared; once wise, now hollow. Aquilus ruled with ambition and fell to his own greed. Death whispered his name but would not claim him, leaving him eternally bound to the corruption he once sought to master. Now he sits enthroned in ruin, a silent tyrant ruling over shadows, haunted by echoes of a glory long since faded.

AQUILIUS

- THE DECAYING

Aquilus unravels, his form collapsing into rot and ruin, the decorated armor peeling back to reveal the decay beneath. Still, he moves with a twisted majesty, trapped between king and monster, pride and decay. His voice cracks, each word a broken whisper, yet his presence looms large—a shadow growing ever darker as his humanity fades, devoured by the magic he desired to govern.

AQUILIUS

- THE FALLEN

Aquilus stands now as a grotesque echo, monstrous and mangled. His mind is lost to madness, his body twisted beyond recognition. Crown and kingdom forgotten, he rises in the darkness, a vision of warped flesh and shattered bone. Driven by a hunger no power can satisfy, he is neither king nor mortal—only a remnant, bound forever to the ruin he himself created.
