

Thorn Vine

Thorn Vine draws its inspiration from the true journey of a female entrepreneur.

Amidst the pandemic, her company faced turbulence due to financial strain: projects were delayed, cash flow tightened, and her team's future became uncertain. Yet rather than yielding, she chose resilience, calmly reassessing, restructuring resources, and restoring stability step by step.

This bespoke creation marks that chapter of growth through adversity. The thorns symbolise the weight of obstacles and pressure, while the diamond shining beyond them becomes a lasting emblem of her strength and transformation.

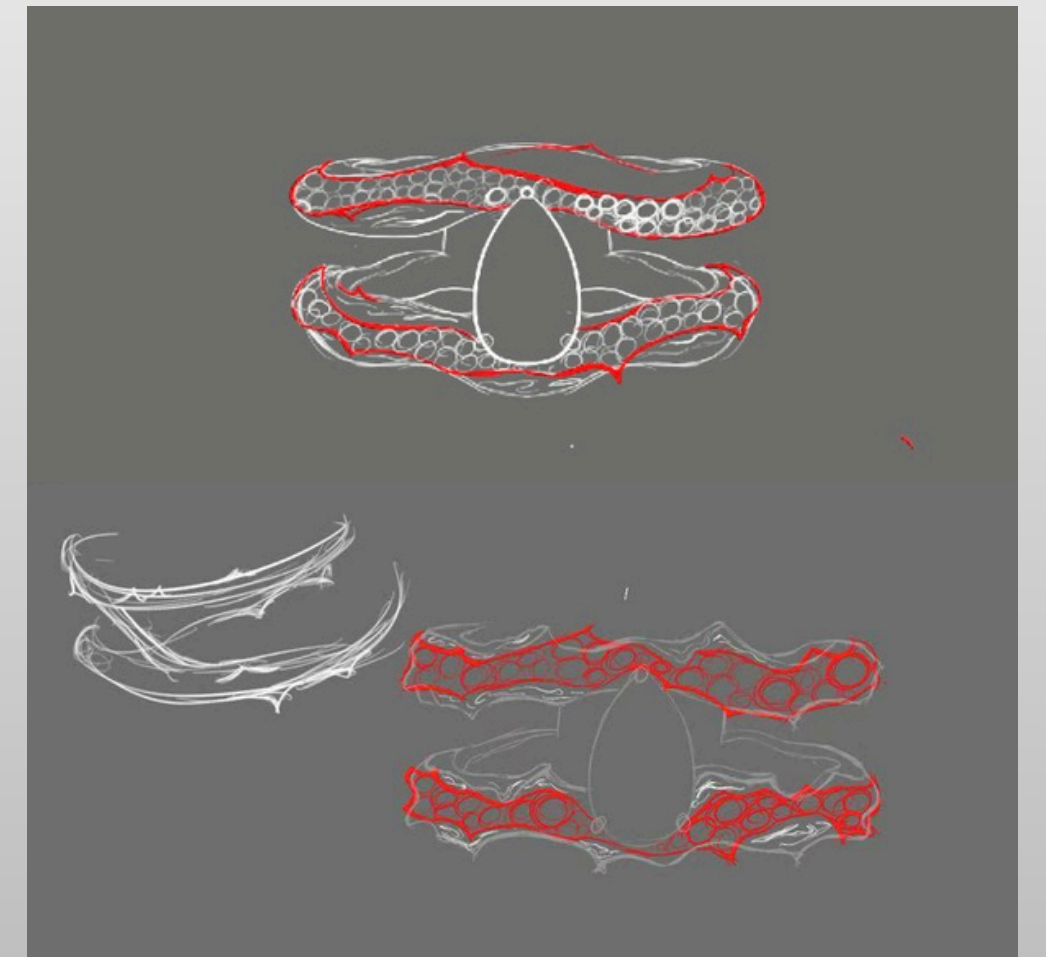

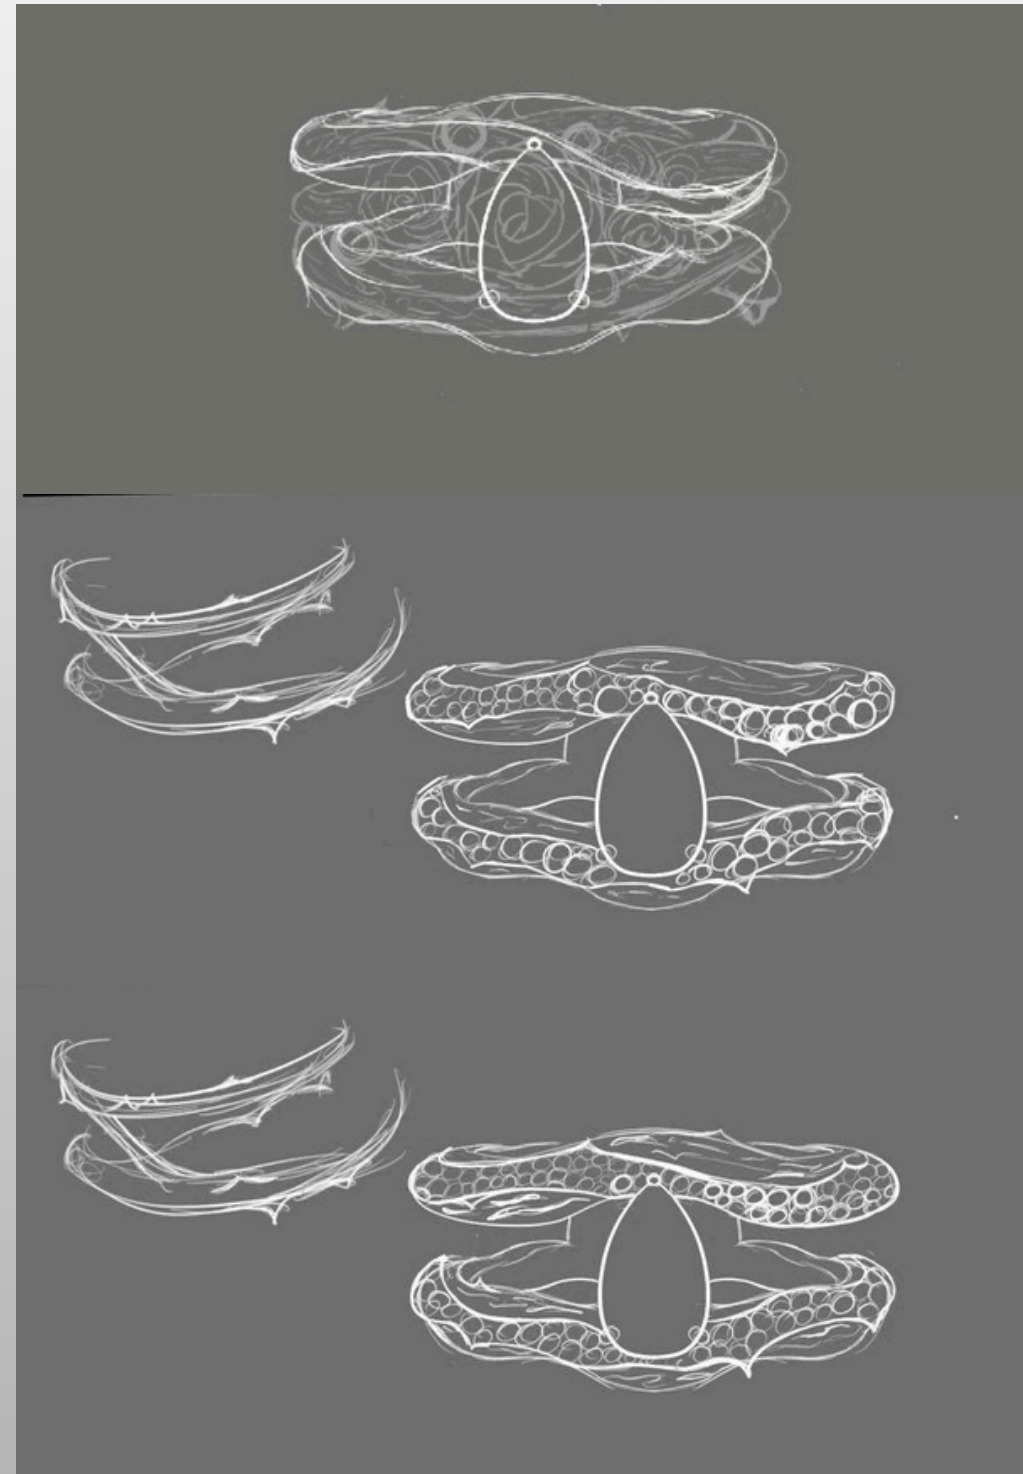

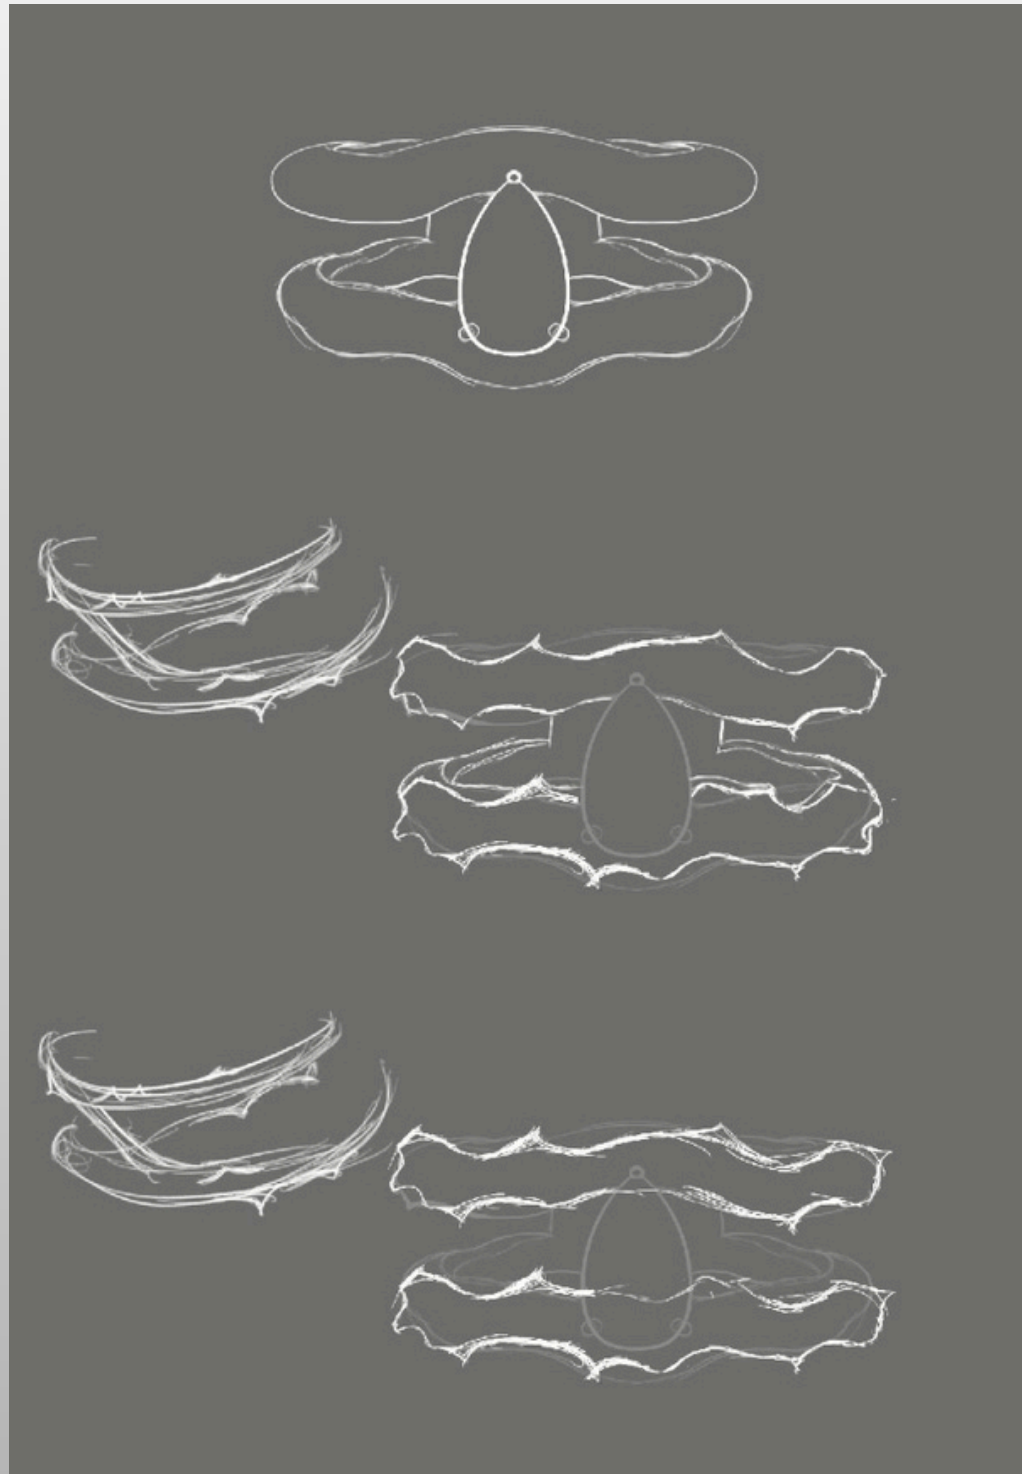

Thorn Vine Ring: Intricately pavé-set vines entwine and overlap, capturing the resilience and brilliance forged in times of challenge.

Thorn Vine Earrings: Set with a single diamond, the design is minimalist yet powerful, echoing a refined aesthetic and everyday elegance.

Thorn Vine is more than jewellery. It embodies the story of a woman entrepreneur. Even when entwined by thorns, one must still bloom with a light of her own.
